

Beauty talk with Dr. Yagoda: Exclusive interview with BeautyScoop

BeautyScoop is the world's most advanced beauty supplement. As a revolutionary new medium that works from the inside, out this supplement is taking the beauty world by storm. Recently, I had the opportunity to speak with the woman behind this amazingly new innovation, *Dr. Michelle Yagoda*. Here is what she had to tell me...

(Q) Hello Dr. Yagoda. How are you? Tell me a little more about BeautyScoop...

BeautyScoop is the world's most advanced nutritional beauty supplement because it is patented and scientifically proven. It addresses problems in the skin, hair and nails:

NAILS: diminishes fingernail ridges; nourishes cuticles; fortifies splits and breaks; lengthens and strengthens the nails.

HAIR: adds luster; intensifies shine; reduces breakage; enhances long, thick hair growth; visibly decreases thinning; and, improves manageability.

SKIN: reduces the appearance of fine lines, wrinkles and dry patches; hydrates and reconditions cracked, scaling and peeling skin; and, increases healthy glow.

Data published in the October issue of Journal of Nutrition and Food Sciences, reported results of BeautyScoop's rigorous double-blind, placebo-controlled, randomized studies:

99% of users noted improvement in their nails, 84% of users noted improvement in their hair, and 61% of users noted improvement in their [skin](#). IN JUST 3 WEEKS!

Eating a healthy diet may not be enough for up to 40% of the population, who will develop problems with absorption with increasing age and certain medical conditions. BeautyScoop's patented nutritional beauty supplement formula, made in a USDA organic-certified factory, undeniably proves the benefits of fortifying a healthy diet. This ground-breaking study will lead to widespread physician acceptance and a boom in consumer confidence in nutritional beauty supplementation.

(Q) What inspired you to create BeautyScoop?

As a surgeon, I realized that even after I created a perfect nose or neckline, it was not enough to register beauty. If my patient had dry, brittle hair; sallow skin; or cracked nails, they would not look beautiful even if her nose and neck did! I realized that external beauty is a reflection of inner health and wellness.

As a chemist, Dr. Gans, my partner, understood that some people (up to 40% according to the NIH) had problems with absorption of nutrients from their diet. As a doctor, I understood that the skin's main function was to act as a barrier to keep things out. Even nanotechnology, which

can improve transport of particles through the skin, did not typically allow "enough" of what might have been missing, to enter the skin in any meaningful concentration.

Dr. Gans and I co-created BeautyScoop to provide powerful peptides, lipids, collagen and hyaluronic acid to the body, in a highly bioavailable form, so that the body could make more perfect nails, hair and skin from within.

(Q) Does this product really work from within? Does this product really protect the body from toxins? Tell me a little more about this...

Yes! It absolutely works. We have more than a decade of rigorous scientific studies to prove it! Those who have bigger problems in the nails, hair and skin at the outset, see faster results! BeautyScoop works because it supplies peptides and lipids, the building blocks for healthy nails, hair and skin. Since up to 40% of people have problems absorbing nutrients even from a healthy diet, BeautyScoop provides these peptides and lipids in a powder form that is immediately bioavailable. BeautyScoop is NOT a vitamin. Vitamins are catalysts that make a reaction go faster.

Think about making chocolate chip cookies. If you use baking powder (the catalyst) the cookies will rise. But if you don't have enough of the basic building blocks (the flour and chocolate chips), you can use all of the baking powder you want....you won't get chocolate chip cookies. Biotin and Silica are catalysts for hair and nail growth. It will help nails and hair grow faster if you have enough of the basic building blocks....but if you have problems absorbing nutrients from your diet (and up to 40% of people do), you may need a nutritional beauty supplement.

(Q) Everyone is different, so it is expected that everyone will see a different result. This product works for the hair, the skin, and the nails. Traditionally most results show in 3 weeks, right? I find that amazing.

99% of users saw improvement in their nails, 84% in their hair, and 61% in their skin within 3 weeks!

(Q) Tell me a little more about the VIP Program...

Join the BeautyScoop® Exclusive *"In-the-Know"* VIP program and as an insider, you will receive the following:

- 10% off initial and future purchases
- a subscription to our monthly e-newsletter
- inspirational winning recipes from the recipe-of-the-month contest
- complimentary upgrades to fast 3 day shipping with every purchase*
- seasonal samples of professional skin care and sun protection products
- a gift copy of our recipe guide, *"Prettier with Every Sip"*
- *"First-To-Know"* health, beauty, wellness & plastic surgery tips from Dr. Michelle Yagoda, NYC celebrity plastic surgeon and co-creator of BeautyScoop®

(Q) Is BeautyScoop really both preservative and gluten-free?

Yes, BeautyScoop is made in a USDA organic-certified factory of all US ingredients from the US with the exception of the canola flower (from Canada) and the Vanilla Orchid Flower (from South America). There are no artificial flavors, colors, sweeteners, or preservatives. It is wheat-free and gluten-free, and free of trans-fats.

(Q) For those natural beauty fans that are uninterested in anything that has been genetically modified, what would you like them to know about this product?

BeautyScoop contains only US derived NON-GMO soy!

(Q) Do you test on animals? What is your stance on animal testing?

We have never and will never perform testing on animals.

(Q) For all of those beauty enthusiasts reading this interview, what would you like them to know? What is next for BeautyScoop?

BeautyScoop is an authentic product trusted by independent doctors, natropaths, chiropractors, osteopaths, integrative healthcare providers, hairstylists, nail technicians, aestheticians and thousands of loyal customers. It was voted in the top three supplements (of all kinds) by the London Sunday Times. With its 30-day money back guarantee, you have nothing to lose and all to gain! There simply is "know" better beauty!
