

# Lymphosuction at the New REJUVENESSENCE Medical Spa

The Best Non-Surgical Spa Treatment in New York

After hearing the buzz that there was an amazing new fast and safe way to improve your looks without surgery, our staff of researchers went to investigate!

After all, we wanted to know first hand about the treatments those discriminating well-heeled clients, television stylists and celebrities were raving about. Our researchers met with Dr. Michelle Yagoda, an internationally acclaimed facial plastic surgeon and the spa's medical director, and were impressed by her expertise and broad knowledge of a variety of surgical and non-surgical topics.

### WHAT IS LYMPHOSUCTION?

It is an exclusive non-surgical face-lifting, skin-firming and body-sculpting treatment. Results are achieved with a new FDA-registered medical device.

Through two combined massage techniques of deep lymphatic drainage and vacuum suction therapy, lymphosuction works by stimulating collagen production, blood flow and oxygen delivery and by eliminating wastes, toxins and excess fluid.

After experiencing the results of this treatment first hand, Dr. Michelle Yagoda researched the physiology and put her name and respected reputation behind it.

She is the first and only physician in the USA to offer this revolutionary new treatment.

### WHAT DOES IT DO TO OUR FACE?

All facials include lymphosuction and use medical, pharmaceutical and prescription products. The result is a visible reduction in swelling under the chin, a lessening of the appearance of fine lines and wrinkles, and an evening of skin color and texture. Included in every facial are masques, serums and specialty lip and eye treatments, determined jointly by the doctor and aesthetician.

The Signature Five-Step Facial provides you with the peace of mind of knowing that you can achieve your desired result safely, non-invasively and enjoyably.

### WHAT DOES IT DO TO YOUR BODY?

Lymphosuction smoothens, firms and lifts the skin as a direct result of an increase in collagen. It jumpstarts the waste removal system to detoxify your body. The process stimulates your circulation, invigorates muscles through deep tissue massage, and energizes you by bringing more oxygen to you. It feels like a workout physically and mentally and ensures you with a better appearance and contour in and out of clothing.

### ABOUT DR. MICHELLE YAGODA

Practicing both facial plastic surgery and otolaryngology (ear, nose and throat surgery), she is associated with New York's finest hospitals. An assistant adjunct attending and clinical instructor at Lenox Hill Hospital, Manhattan Eye, Ear and Throat Hospital and The New York Eye and Ear Infirmary, she has a wonderful private office with operating suite and medical spa. Dr. Yagoda discretely caters to a professional and celebrity clientele. She serves on the committees of Women in Facial Plastic Surgery and Face-to-Face: The Domestic Violence Project, providing complimentary facial plastic surgery to survivors of domestic abuse. She is a member of the New York Society of Facial Plastic Surgery, the American Academy of Facial Plastic and Reconstructive Surgery and the American Academy of Cosmetic Surgery.

"This is an affordable, effective and relaxing, non-surgical face-lifting treatment that gets noticeable results."  
Terry Penta,  
Bergen County, NJ

### ABOUT VALENTINA PORTER, CHIEF AESTHETICIAN

Servicing international clientele for decades, she worked with Jacqueline Kennedy who loved that she was trained in both European and American techniques. She provides a full range of aesthetic treatments including facials, body sculpting, microdermabrasion, enzyme peels, chemical peels, waxing, eyelash tinting and extensions, massage and electrolysis. She is a certified instructor of lymphosuction and plans a tailored treatment for each client under the direct supervision of Dr. Michelle Yagoda.

Dr. Yagoda's luncheon conference at the Saigon Grill on Amsterdam Ave. in NYC, was very enlightening.

"This is unbelievable! I am afraid of the knife and will not consider surgery. Now there is a way that I can look good, without danger to my body."  
Theo - N.Y. Designer

"I saw the fine lines and wrinkles disappear."  
Alli Becker

"I have been all over the world and have never experience anything so fabulous. When I went out to dinner that evening, everyone wanted to know if I'd had 'work' done. It is the closest thing to a non-surgical facelift I have ever seen and I absolutely recommend it to everyone I know!"  
Jackie Tossi

"Unrivald place to go for an amazing new non-surgical face-lifting treatment."  
Indira Gunrova  
- Researcher Reporter for the United Nations

"I have tried to treat my cellulite with creams, oils, brushes, massages and even special shoes. Lymphosuction is enjoyable and more importantly, it actually works. When I heard about it, I thought it was too good to be true. Now that I have had it, I am a true believer."  
Suzanne Menza
