

Stars' Pandemic Nips, Tucks & Jabs!

These celebrities have changed over the past year — in so many ways!

Khloé's About-Face

Who's that girl? Khloé Kardashian has denied having plastic surgery in the past, but the 36-year-old's been almost unrecognizable of late. And it's not just due to her darker hair color. "Khloé has pretty much had everything done, it seems," comments Dr. Yagoda, who does not call the *Keeping Up With the Kardashians* star a patient. "It's apparent she's had Botox, brow microblading, lash extensions, rhinoplasty, lip augmentation, cheek, chin and jawline fillers and CoolSculpting!"

BEFORE

Julianne Plumps Her Pout

After officially filing for divorce from Brooks Laich in November, Julianne Hough celebrated her freedom by buying herself...a brand new kisser? "It appears Julianne has lip filler," notes Dr. Michelle Yagoda, a NYC celebrity facial plastic surgeon who has never treated the 32-year-old. Though her puffier pout drew mixed reactions on Instagram, with one commenter saying Jules was "much prettier before," an insider shares "she's having fun experimenting and trying new things. Julianne loves her new look!"

BEFORE

Housewives HIT REFRESH

Did Brandi Go Too Far?

Brandi Glanville, 48, previously denied having facial work done and blames her recent altered look on burns from a psoriasis lamp in December. But Dr. Yagoda — who doesn't treat the *Beverly Hills* alum — suggests there's "overdone lip filler, uneven Botox and too much cheek filler" at play.

Dolores Achieves Her Dream Bod

After losing 25 pounds, *New Jersey's* Dolores Catania, 50, completed her body transformation in 2020 with a tummy tuck, lipo and butt injections. "I have no regrets at all," she said.

Sonja Tightens Things Up

In July, Sonja Morgan, 57, revealed the results of her face- and neck-lift while on hiatus from filming *The Real Housewives of New York City*. "I needed a pick-me-up," she explained.

Leah Tweaks Her Chest & Nose

New York City's Leah McSweeney, 38, raved about undergoing a "Xmas boob lift and augmentation" after getting rhinoplasty just a few short months earlier.

BEFORE

Demi Gets Cheeky

Demi Moore said her walk down the Fendi runway in January was "a teenage fantasy fulfilled." Her hollowed-out cheeks at the event, however, gave some nightmares — with one fan comparing the actress, 58, to a "Day of the Dead skull" on Twitter. While Michigan-based plastic surgeon Dr. Anthony Youn hasn't treated Demi, he believes she may have undergone a buccal fat removal operation. "A chunk of fat is removed from the inside of the cheek," he explains, "causing the cheek and the face to look slimmer."

BEFORE

Madison's Mommy Makeover

"If life gives you lemons, [Dr. Patrick O'Neill] can turn them to melons," *Southern Charm's* Madison LeCroy, 31, joked in October of the plastic surgeon who boosted her bust with a lift and "as natural as possible" implants. That wasn't the end of what she's called her "complete mommy makeover," though. The mama of Hudson, 8, says she also saw the doc to have her "belly button and everything reconstructed." Wonder what A-Rod thinks of the results!
